1. Crease along centerline, fold 5, and reopen.

2. Flip plane over and fold along lines 1 and 2.

3. Fold along lines 3 and 4.

4. Flip plane over and fold down along centerline, line 5.

5. Fold one wing up along line 6.

6. Flip plane over, and fold wing down along line 7.

Bend elevators up slightly for best flight.

Fold wingtips up along lines 8 and 9.

Make sure wingtips lie above airplane body so wings form a slight “Y” shape with body.
